Core | Deadline: Sunday of Week 2 | Difficulty Level: Advanced | Est. Time: 3+ hours
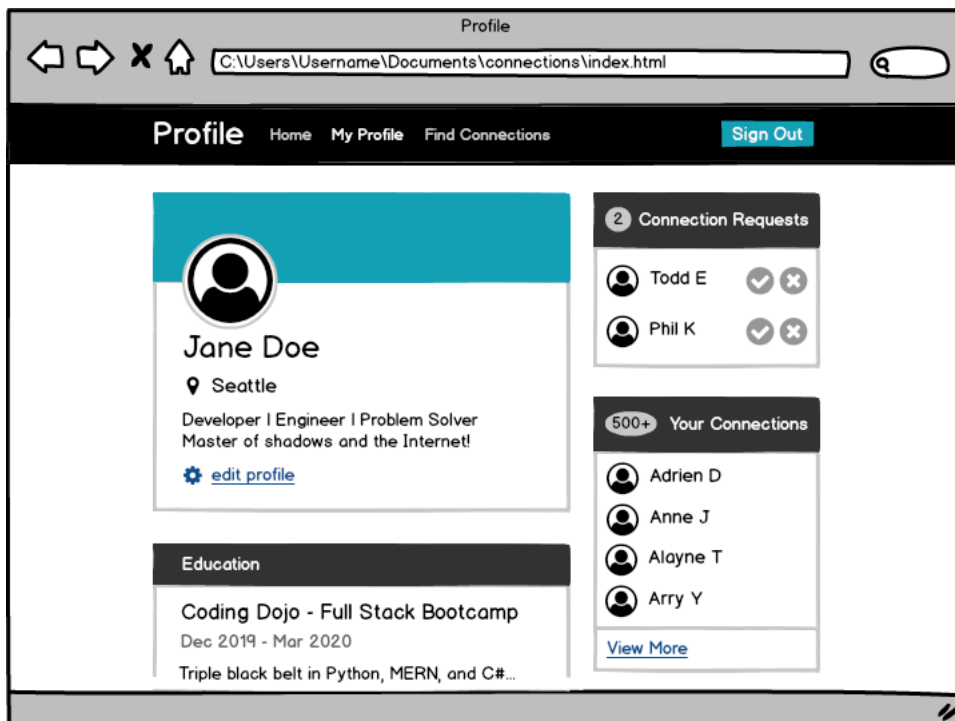

Profile Page

Objectives:

- Use what we've learned about **CSS** to recreate the following website

This is a tricky assignment, let's make sure we build in layers working from the top down and from the outside to the inside.

This assignment may take us upwards of 4 hours to complete, this is normal as **CSS** can be time consuming. **We strongly suggest working in groups**, pair programming is a common programming practice.

We can find the avatar images here: images.zip and the icons are available here: icons.zip

---

When you've turned in your solution, navigate over to your "assignment checklist" tab to check out the green check mark - you're one assignment closer to graduation!

Help, I'm Stuck!

I've struggled for <20 minutes.	I've struggled for <40 minutes.	I've struggled for >40 minutes.
• Re-read the previous modules for extra clarity. • Search for specific help on Google, such as "making <p> tags in italics."	• Post in your cohort's Discord channel so your classmates can help!	• Tag a TA or instructor on Discord. • Schedule a code review.

☐ Draw on a sheet of paper all of the `divs` we expect to need to create the layout and name them with `ids` and `classes`

☐ Recreate the look of the top navigation element

☐ Continue building the 2 column layout of this website, start with the rough boxes and add in the images and text as we go
